WHOLE NUMBER 4642

SLACKERS TO FIND NO PITY FOR FAILING TO REGISTER

**General Crowder Announces That
"Aggressive Campaign" To
Carry Out Penal Section of
Draft Law Will Be Enforced**

**STATES MUST FILL UP
THE ESTIMATED QUOTA**

**Failure To Comply With the
Terms of the Act Will Not Be
Tolerated Declares Army Of-
ficer Acting As Provost Marshal**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 12.—Messages were sent yesterday to the governors of the various States by General Crowder that there shall be inaugurated today "a vigorous, aggressive and effective enforcement of the penal clause in the draft law."

The department of justice has received orders to release those already arrested provided they immediately register. Early in the day an order had issued for the arrest of all men within the ages prescribed by the law who failed to register by nine o'clock last night.

The orders given last night also prescribe the regulations which will govern the exemptions.

Returns of the registration are still incomplete and it will probably be a week before they are all received and tabulated. Returns from thirty-four States now total 6,358,388 and exemptions 3,439,427.

By far the best showing of the States whose returns are in has been made by Ohio where the registration is 113 per cent of the estimate made by the census bureau.

The State of Washington, with only 50.9 per cent of the census estimate, is the lowest. The estimate was 212,634 and the actual registration 108,615. The judge advocate general telegraphed to Governor Lister in response to an inquiry by him that the State's quota of men registered must be upon the basis of the census bureau estimate. He further declared that the period for leniency for those who have failed to obey the law was at an end.

Reports from Freeport, Illinois, said that forty-five residents of the neighboring city of Rockford pleaded guilty there yesterday in the federal court to a charge of having disobeyed the registration provision of the army bill passed by congress recently. Two others entered pleas of not guilty and six who were accused of conspiracy to defeat registration also pleaded not guilty and their cases were continued to June 21.

**ANNUAL RIFLE MATCH
CALLED OFF THIS YEAR**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 11.—The annual national rifle match will not be held this year, on account of the war, according to an announcement made by the war department yesterday.

RICHEST INDIAN WANTS \$640,000 IN LIBERTY LOAN

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 12.—Jackson Barnett of Henryetta, Oklahoma, the wealthiest Indian in the United States, yesterday signed an application for \$640,000 of Liberty Loan bonds through his guardian. This opens the way to other subscriptions from wealthy Indians who, while they could not subscribe on their own behalf, will now be able to do so through guardians by the same method of procedure. In Oklahoma a large part of the wealth of the State is held by Indians who have only partial control of their own property, being considered under the law as "wards of the nation."

NORWAY SENDING TRADE DELEGATES

**Mission Will Confer With Heads
of American Government
Regarding Problems**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 11.—A Norwegian trade mission is coming to the United States to confer with the heads of this government in regard to trade between the United States and Norway. It has been officially stated to United States Minister Schmiedeman by the Norwegian government.

The mission is expected to take up with the government of the United States the question of what goods and in what quantities may be shipped from this country to Norway. The administration is now preparing to urge the passage of legislation restricting the export of supplies that might find their way through neutral countries to the Central Powers.

The Espionage Bill already gives the government authorities power to declare an embargo on the export of supplies to neutral countries contiguous to Germany.

FOOD LEGISLATION PUSHED BY WILSON

**President Appeals To Labor Men
and Congressmen To Get
Measure Through**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 12.—The administration is insistent on the passage of legislation for food control, as is shown by Wilson's call upon leaders of organized labor as well as leaders among the congressmen. The first bill was yesterday delivered to a conference committee. The house committee on agriculture, in reporting the bill out, eliminates the clause giving power to the President to fix minimum prices, but retains the clause which empowers him to set minimum figures. The provision which authorizes the limitation of purchases of foods is also retained.

The house retains the provision which grants the use of grain for the manufacture of liquor, while the senate committee has voted to make the question of prohibition a separate issue.

LORD NORTHCLIFFE ON WAY TO WASHINGTON

**Famous British Journalist Represents
British Government**

(Associated Press By U. S. Naval Communication Service)

AN ATLANTIC PORT, June 11.—Lord Northcliffe, the famous British publisher, arrived here today to represent the British government in coordinating British and American war activities.

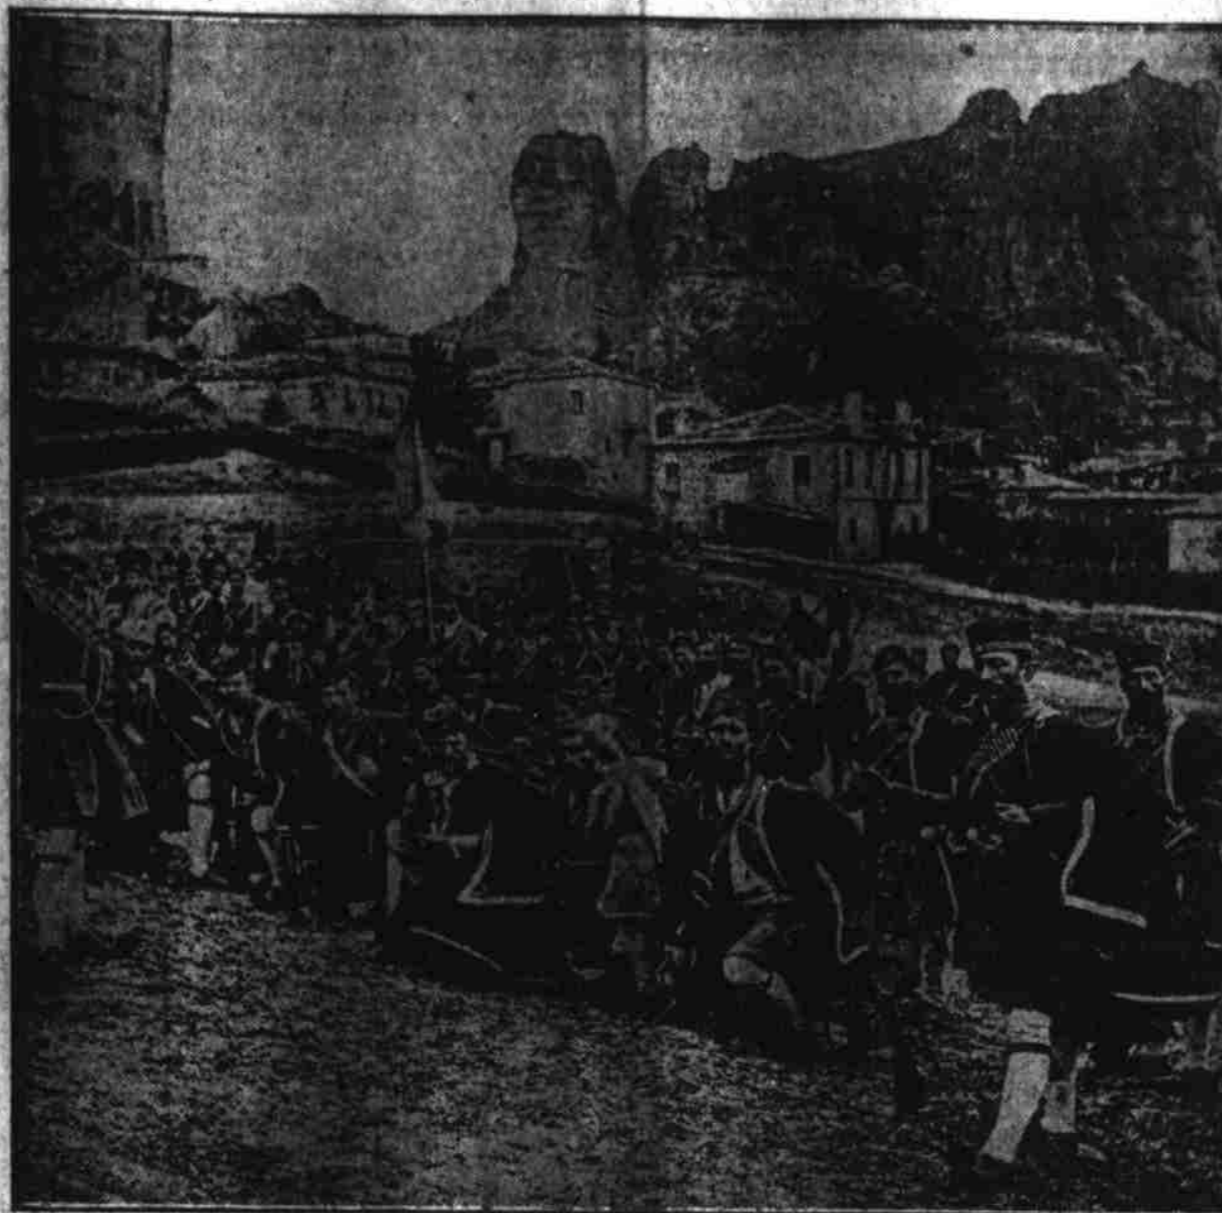

Lord Northcliffe's visit follows the recent visit of the British mission. When the mission left, it was announced that its work in the United States would be carried forward by Lord Northcliffe.

POLICEMAN KILLED AT SINN FEIN MEETING

(Associated Press By U. S. Naval Communication Service)

DUBLIN, June 11.—A police inspector was killed today in trying vainly to prevent a meeting of Sinn Feiners which had been prohibited by the government.

GREEK troops of the Venizelos government, on duty along the northern Macedonian border with the Allies. It is here that the fighting, which has been hanging fire for some time is reported to have broken out afresh and with renewed fury, under the command of General Sarraïl, the commander in chief of the Entente Allies in that section of the Great War

NO PAY FOR NAVY MEN WHEN DRUNK

**Secretary Daniels Would Put
Stop To All Drinking In His
Branch of Service**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 12.—No pay for officers or men of the navy for any period they may be incapacitated for duty through intoxication or other misconduct, is a provision contained in a bill drafted by Secretary of the Navy Daniels and introduced in the house of representatives yesterday. It is a further step in the campaign of the government to put booze out as an element that is to be considered in the problems that must be solved when the army and navy are doing fighting service and to put the men of both bodies into a state of physical efficiency before they shall be called upon for the actual work of the war.

Other provisions of the bill raise the pay of certain classes of men in the navy. It provides for an increase for machinists and water tenders from \$40 to \$45 a month and yeomen who are stenographers capable of taking fast dictation \$40 a month.

MEN OF MOEWE ARE PRISONERS OF WAR

**Government Arranges Through
Switzerland For Their Supplies**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 12.—Germany yesterday notified the United States of the status in which it holds the seventy-five men from the Moewe and declares that they are considered prisoners of war and as such will be held.

For a long time Germany denied that it had any men from the Moewe and since the admission until now has not made any announcement as to how they were held.

Upon receipt of the notification the United States at once arranged through Switzerland for the supply of food and other necessities for these men.

NORWEGIAN STEAMER SUBMARINE'S VICTIM

(Associated Press By U. S. Naval Communication Service)

NEW YORK, June 11.—The Norwegian steamer Askild has been sunk by a submarine, according to news received here today.

MISSION TO RUSS DUE AT CAPITAL TOMORROW NIGHT

(Associated Press By U. S. Naval Communication Service)

PETROGRAD, June 12.—Elhu Root, former secretary of war under President Roosevelt, and head of the American mission to Russia, is expected to reach this city tomorrow night, according to a report made public here last night. The public generally did not know that he had left Vladivostok, and the announcement that he and the members of the mission which he heads, are so close to this city came as a complete surprise. The foreign office last night issued a statement in which it declared that "great results are anticipated here from the mission which Mr. Root heads."

Coast League Plays Baseball Game For Aid of Red Cross

(Associated Press By U. S. Naval Communication Service)

SAN FRANCISCO, June 12.—Yesterday's baseball game in the Pacific Coast league here was a benefit game for the Red Cross fund, and drew a large Saturday crowd. A baseball upon which President Wilson had written his autograph was put up at auction and after spirited bidding was knocked down to Clarence Berry for \$175. This sum was added to the proceeds of the game and further increased the contribution to the fund.

BRITAIN ANSWERS RUSSIA'S QUERIES

(Associated Press By U. S. Naval Communication Service)

LONDON, May 12.—Great Britain in replying to the request of Russia for a statement of the aims it has in this war says that it concurs with the Russian purpose not to be dominated by any other peoples. It is not the aim of the war to take away any national patrimony but on the contrary to prevent such taking or seizure nor can it be permitted that a power shall forcibly enter upon and occupy the country of other nations.

Continuing the statement says that Great Britain heartily joins with Russia in its acceptance and approval of the principles which were laid down and insisted upon by President Wilson in his address to the Congress of the United States.

THIRTY-ONE MINERS TAKEN FROM MINE

**Workers Redouble Efforts To
Save Those Still Deep In
Burning Copper Pit**

(Associated Press By U. S. Naval Communication Service)

BUTTE, Montana, June 11.—Thirty-one men of the nearly two hundred miners entombed in the Speculator copper mine at North Butte have been rescued alive and the rescue gangs are still working frantically; their hopes of saving others having been renewed by the finding of ten of the miners yesterday.

In addition to the thirty-one who have been brought alive out of the burning mine, thirty-six bodies have been identified and forty have been found that have not been identified. Eighty-eight men are still missing. In the hope of saving at least some of them, the rescue gangs are examining miles of the underground working of the mine.

CONVENTION WILL TAKE UP HOME RULE

**Ireland's Long Standing Problem
Up For Settlement**

(Associated Press By U. S. Naval Communication Service)

LONDON, June 12.—A convention was convened yesterday by the government for the consideration of home rule for Ireland problems. The convention is composed of 101 members from all parts of life among the Irish and from all parts of Ireland. It will select its own chairman and proceed to consider the various phases of home rule.

When the project was suggested by David Lloyd George there was some doubt of its acceptance by the Irish Unionist Alliance but on June 1, the council of that body announced that while it deprecated the opening of home rule during the war it was willing to participate in the convention provided the three southern counties of Ireland should be given a fair and just representation.

MISSING MEN FROM SOUTHLAND RESCUED

(Associated Press By U. S. Naval Communication Service)

LONDON, June 11.—Two missing men from the steamer Southland, which was torpedoed, were found today. Forty refugees, suffering from shock and exposure, were rescued.

ORGANIZED LABOR WANTS MEMBERS ON ALL BOARDS

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 12.—Strong arguments for the appointment of a representative of organized labor on all exemption boards were presented yesterday by Samuel Gompers in a letter which he sent to General Crowder. Gompers urges this point as a matter of right and justice. Labor will have its problems as well as capital, he insists, and if it be not represented on the exemption boards there will be no acknowledgment of the workers' problems. "Such a condition would offer infinite opportunities for injustice," he concludes.

NEWBERRY NAMED NAVAL COMMANDER

**Former Assistant Secretary of
the Navy Given Commission
In the Service**

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 11.—Truman Handy Newberry, former secretary of the navy under President Roosevelt, was commissioned yesterday by President Wilson as a commander in the naval reserve and ordered to report here immediately.

Mr. Newberry is exceptionally well acquainted with the work that lies before him, having not only been secretary of the navy but having served in the navy. He entered the United States Navy in 1898 with the rank of lieutenant, junior grade, and served on the U. S. S. Yosemite through the Spanish-American war. Previous to that he had been one of the organizers of the Michigan State naval brigade, and before that had been director and in executive positions of importance in several of the biggest manufacturing, traction and financial institutions of the country. His home is at Gross Pointe Farms, Michigan.

THOUSANDS WEEP FOR LLOYD KEET

**Crowds Attend the Funeral of
Little Kidnapped and Mur-
dered Lad in Missouri**

(Associated Press By U. S. Naval Communication Service)

SPRINGFIELD, Missouri, June 11.—Thousands attended yesterday the funeral and burial of little Lloyd Keet, infant son of J. Holland Keet of this city, who was murdered by kidnapers who stole him for ransom.

A warrant has been issued for the arrest of Dick Carter, twenty-six years old, who is suspected of being one of the murderers of the child and who is alleged to have wrapped the remains in blankets. The police of a hundred cities have been asked to hunt for Carter and for another man whose name has not been made public.

The kidnapping and subsequent murder of the Keet baby has aroused the entire state of Missouri, as was evidenced Saturday night when mobs attempted to take from the sheriff persons who had been arrested by him on suspicion of being implicated in the crime. The boy was stolen from his bed the night of May 30 while a maid slept in an adjoining room and his parents were at the Country Club.

Later the father, a former banker of this city, received a demand from the kidnapers to pay them a ransom of \$50,000 on penalty of the baby being tortured. The letter enclosed a piece of the child's nightgown. The father, in a desperate attempt to save the boy's life, drove a long distance through a storm to deliver the \$50,000 ransom, but the kidnapers failed to keep their appointment. Detectives expressed the opinion that the writer of the letter was a woman.

Keet is manager of an estate belonging to his mother valued at \$3,000,000.

HOUSE AGREES UPON DRASTIC FOOD BILL

(Associated Press By U. S. Naval Communication Service)

WASHINGTON, June 11.—The house committee considering the food control bill today agreed upon a drastic bill, by a vote of twelve to three. The bill would guarantee a minimum price to producers of non-perishable products. It makes it unlawful to destroy, hoard or monopolize food, or artificially to increase the price. It limits the facilities for transportation, in order to assure transportation of food and fuel, and provides also for licensing and regulating the business of food dealers.

BRITISH WIN FRESH MILES FROM GERMAN INFANTRYMEN

**Important Position East of Mes-
sines Falls Before Last Fierce
Thrust Delivered By Troops Under
Command of General Haig**

**ITALIANS ALSO STORM
AUSTRIAN POSITIONS**

**Report the Capture of Vital Posts
On Crest of Monte Ortigara After
Desperate Fighting—Sar-
raïl Strikes Hard In Macedonia**

(Associated Press By U. S. Naval Communication Service)

LONDON, June 12.—Another mile of trenches on the front southeast of Messines fell into the hands of the British yesterday, according to an official statement issued by the war office. The German demoralization occasioned by the terrific mine operations of last week continues and the British seem able to advance whenever they please now.

The official statement adds that along with the mile-long stretch of trenches, the British captured seven field guns and a considerable number of prisoners to add to the approximately 8000 that have fallen into their hands during the past week.

Reports from the other fronts indicate that the Allies are pressing forward at all points and that the Central Powers are being slowly forced to give ground in many of the most important theaters of the war.

Italy yesterday reported that her troops are striking with desperate valor and with more than minor success against the Austrian soldiers on the Isonzo line. In the Trentino the Italians have opened a new offensive which promises to net them large results, for last night Rome announced that the Latin infantry had charged through the famous Angello Pass near Monte Ortigara, and had captured both pass and mountain, consolidating all the captured ground. The Austrians have also lost five hundred prisoners in this fighting, which was of the fiercest nature, seen on that front in many months.

Both Monte Ortigara and Angello Pass are of enormous importance in the strategy of this sector, for they afford dominating positions to the troop controlling them. The Austrians realized this and struggled desperately to retain their posts along that line. Farther to the east the Italians have thrust forward recently and yesterday they brought their heavy artillery into full and effective play, spraying the Austrian lines with high explosives.

The French are also reported busy with their artillery and in the region of Mont Carnillet yesterday there was heavy firing of the great guns. Two attacks by the Germans near Courcy, in an effort to surprise the French broke down under the French artillery and machine gun fire.

Paris reports that the indications are that General Sarraïl in Macedonia has resumed his offensive against the Bulgarian troops holding the heights along the Serbian frontier.
